| Note: numbers indicate years since the |
| Fall. Those in brackets indicate lifespan. |
| Adam lived 930 years (Gen. 5:5) and Methuselah lived 969 years (Gen. 5:27). |
| Together they spanned the whole period from the Fall to the Flood, with an overlap |
| of 243 years. Adam would often tell of the events in the Garden of Eden. In ten |
| generations Noah was the first one not to know Adam personally! |
