**In the Image of God**

"We must understand that the question of dignity of human life is not something on the periphery of Judeo-Christian thinking, but almost in the center of it (though not *the* center because the center is the existence of God Himself). But the dignity of human life is unbreakably linked to the existence of the personal-infinite God who has made men and women in His own image that they have a unique dignity of life as human beings. Human life then is filled with dignity, and the state and humanistically oriented law have no right and no authority to take human life arbitrarily in the way that is it being taken."

Francis A. Schaeffer ~ A Christian Manifesto 1981
