Sermon: "Predictions For 2022!"

I Text:

Old Covenant: *Psalm 110*

New Covenant: *Revelation 13:16-18; 14:6-13*

II Doctrine:

- 1) The year 2021 was one of the most turbulent years in world history. Despite the calamity and confusion that descended upon a wicked generation, Jesus Christ still reigns. God is not amused with the open Satanism in the world, and he is allowing it to be smashed. (*Psalm 110*)

- 2) The living God is still intimately involved with his creation. God will continue to smash the idols of government, entertainment, healthcare, welfare, technology, and food production, his people have so much confidence in. Even Christians have started to believe they and their children can love the filth of the world without repercussions. (*Romans 1:16-27*)

- 3) The true church is not dead and will prosper during these difficult times. Our God will continue to support his remnant and we will thrive spiritually. (*Hebrews 5*)

- 4) The Covid pandemic will be revealed as a treacherous act unleashed upon the world by the "Elites" they worship. "Trust the science" and observe how triple vaccinated people are still getting and spreading the virus. The same people who butcher the unborn, sexual mutilate young children, and teach them Satanism, you trust with your health! **Dr. Robert Malone** who invented the technology for the Covid vaccine is begging people not to give it to their children. - 5) The Covid pandemic was always about the financial system and not the virus. An attempt is being made to track and trace everyone for the new economy. The old financial system is dying. We will no longer use physical money and everything you do will be tracked by the central bank. This is an attempt to control the behavior of the people by their governments. - 6) Civil war in America will be promoted by the "left" and "right" side of politics. America must be broken up into smaller pieces so the NEW World Order can be successful. Our "most trusted allies" of Europe and Israel actually want to destroy us and establish a central banking dictatorship. God will destroy the all those who oppose him.
