

## End Times: The Tribulation

(December 7, 2021)

Before we get into our main portion of the article, I just wanted to present some information that readers may appreciate if they are not already aware of it. As always, do your own research and come to your own conclusions.

First up, what are hospitals gaining (if anything), from folks who become patients there for COVID-19? Attorney Thomas Renz and others have continued to research things and found some troubling information. You can read about it here: [Biden's Bounty on Your Life: Hospitals' Incentive Payments for COVID-19](#) If what is stated in the article is true, hospitals appear to be gaining approximately (or at least), \$100,000 per CV patient from the government.

Second, I'm noticing a severe uptick in troubling adverse reactions experienced now among children (ages 5-11), that did not exist before. [Here is merely one article](#) that highlights numerous situations concerning the very young, whom we were told in the beginning were not in danger of contracting or being killed by COVID. Seems we've come full circle to now wanting them vaxxed. The 7-year-old's story is told in the article and this image sums it up. She is seen walking for the first time since suffering a stroke and brain hemorrhage.

In spite of this, [de Blasio, NYC's mayor](#), has announced mandatory vaccinations for all private businesses there. In related news, [Alex Berenson](#) talks about the lunacy of depending upon vaccines to eradicate CV and provides the facts to back it up based on analysis of what's happening in the nation of Wales alone.

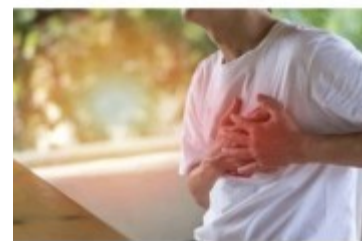

Sadly, Steve Kirsch talks about the fact that [stillbirths have increased 28 times in parts of Canada](#) and as he notes, it's only happening to mom's who take the vax while pregnant. Hospitals continue to deny any and all connections with the CV jab. In fact, numerous doctors are now warning that the increase in heart ailments among both adults and children is due to either the weather or what they are calling [PPSD \(Post Pandemic Stress Disorder\)](#), where, doctors tell us that up to 300,000 face heart-related illness. However, children weren't experiencing heart issues until after injections for that age-group began. I don't want to appear to be rude, but if people believe this, then I am actually past the point of feeling sorry for them. Heart issues like the ones we're seeing did not start until *after* the CV vax and now have become a regular occurrence. We have friends who have died, whose health has seriously taken a hit, some have been hospitalized and all

A 7-yr-old child suffered a stroke & brain hemorrhage just one week after receiving her first dose of Pfizer COVID-19 vaccine. They want us to believe that this is totally normal and unrelated to the covid vaccine. People should go to jail for many years.

### Researchers Warn That Cold Weather Can Cause Blood Clots & Heart Attacks

As the cold winter weather arrives in the UK, forecasters issue weather warnings across the country, however, the cold weather can also have an impact on your health according to researchers.

seemingly due to the job.

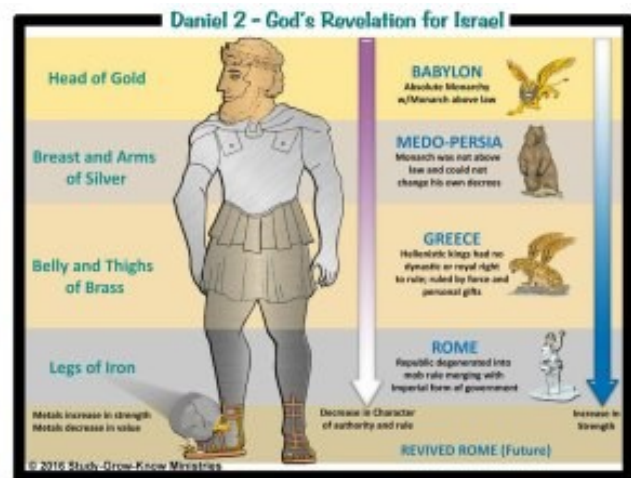

Well, let's move on to today's subject: the Tribulation.

### Has the Tribulation Begun?

The Bible tells us in detail of a coming period of seven years where life on earth will be horrible, but moreover, Jesus indicates in His Olivet Discourse that this upcoming future seven years will be the worst seven years this earth has ever or will ever experience (**Matthew 24, Mark 13, Luke 21**). That's stating a great deal.

The Tribulation as such is not just a New Testament subject, but one that is also referenced in the Old Testament. This is one very good reason why it is important to read and study the Old *and* New Testaments because there is a great deal in both sections that help us discover God's full truth.

In **Daniel 2**, we learn of the final major world kingdoms that would come and go, leading up to the end of this human age, ended by the physical return of Jesus to this earth, where He will set up His Millennial Kingdom and all that goes with it, including the judgment of the Sheep and the Goats. We know that these kingdoms in order are: **Babylonian, Medo-Persian, Grecian, Roman and Revised Roman** (the final all-world kingdom ruled by Antichrist). These were revealed to Nebuchadnezzar through the prophet Daniel and by extension, to us today. While we were not alive during any previous "world" governments listed there, I believe we are alive as the final, Revised Roman Empire is preparing itself to take the stage. Much seems to need to occur before that can actually happen, but it appears as though it is on its way and the

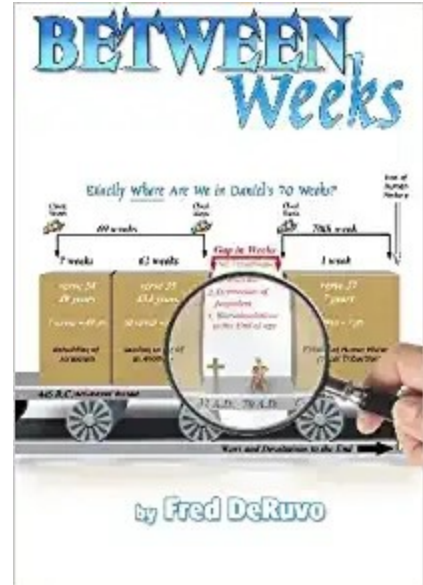

foundation for that final world order is being carefully and judiciously laid.

But the big question is if this particular one-world order that is spoken of in many sections of both the Old and New Testaments is to occur, how will anyone know when it has actually *begun*? Is there some type of signal or event that will occur globally that will be the red flag to tell the world that the Tribulation has in fact, begun? I believe there is and I've spoken about this before but it is not the Rapture (which we will get into in another part).

In **Daniel 9:24-27**, we learn of the event that in essence, kicks things off for the world. **Verse 24** speaks of "seventy weeks," which, translated literally, means seventy *sevens*. How do we know this? Simply because the entirety of **Daniel 9** is speaking in terms of weeks and a "week" in this context is seven *years*.

Ultimately, Daniel is told that there will come a time when *his* people (Daniel's people; the Jews), will experience a total of **490 years** (or seventy sevens/seventy weeks), and **Daniel 9:24-27** speaks of a total of 70 weeks/sevens or 490 years, then goes onto focus specifically on the final seven sevens/seven years (or one "week"), that leads directly up to the physical return of Jesus. This final seven year period is the length of time that the final world kingdom (Revised Roman Empire), will be allowed to operate on earth and will engulf the entire world.

*25 Know and understand this: From the issuance of the decree to restore and rebuild Jerusalem, until the Messiah, the Prince, there will be seven weeks and sixty-two weeks. It will be rebuilt with streets and a trench, but in times of distress.*

*26 Then after the sixty-two weeks the Messiah will be cut off and will have nothing.*

*Then the people of the prince who is to come will destroy the city and the sanctuary. The end will come like a flood, and until the end there will be war; desolations have been decreed. 27 And he will confirm a covenant with many for one week, but in the middle of the week he will put an end to sacrifice and offering. And on the wing of the temple will come the abomination that causes desolation, until the decreed destruction is poured out upon him.*

I've written a book called [Between Weeks](#) that explains these "weeks" in detail for those who want more in-depth understanding of how we arrive at the meaning of "weeks" or "sevens" in Scripture. But please notice starting with **verses 25-26** where Messiah (the Prince), is mentioned and then following that is the mention of "*the prince who is to come.*" This, as can be imagined is cause for confusion with some thinking it refers back to Jesus (Messiah, the Prince), while others believe it to be some Roman Caesar of past history, while yet others believe it to be the future Antichrist. I believe it is the latter. The text refers to the "*...people of the prince who is to come.*" In other words, the focus is on the people (Gentiles), here, not necessarily that specific prince, although this seems to make clear that the coming "prince" of the people will be Gentile, the same ethnicity of people who destroyed the city of Jerusalem in AD 70 (the Romans led by Titus). Daniel is writing about events here that will ultimately lead up to the coming of the final man of sin (**2 Thessalonians 2**), otherwise known as the Antichrist and how that will happen.

While some think that Titus was *the* Antichrist, it seems clear he was simply a *type* of Antichrist (like Nimrod, Antiochus Epiphanes IV, Hitler, Stalin, etc.). The final Antichrist *will* rule the entire world as head of the coming final world order. That has not happened yet, but it should be very clear that we are certainly heading in that direction.

We have Klaus Schwab (with his "Great Reset/Great Narrative" that we'll discuss soon), being pushed and built right before our eyes. The momentum is building in various parts of the world with one country after another going into full lock-down over a virus that has a survivability rate of at least 99%. It is being used to artificially steer the entire world into a specific direction so that the final world order can find fulfillment from **Daniel 2**. Remember when they told us once most were vaccinated, we could return to normal? In spite of numerous countries being nearly all vaxxed, they are still going into full lock-down mode: Canada, UK, Gibraltar, Australia, Wales, Ireland, etc. Why do they keep moving the goal posts? Consider what the woman in the image has to say about returning to Canada and what she went through. To top it off, she is fully vaxxed, but what they put her through proves that being vaxxed does not guarantee anything. Something is seriously wrong.

Please notice **Daniel 9:27**, which is a very important verse in the timeline. It tells us that "he" will confirm a covenant with the many for one week...but who is the "he" here? If we follow the rules of the first antecedent, it refers back to the last person spoken of, which in this case is the "prince" (*of the people who is to come*). It is *this* individual who will create a covenant with the many.

If two distinct people are highlighted here with the first being Messiah (Jesus) and the second the "prince" of the people who is to come, then it should also be clear that this second person who is *not* Jesus is the very person who will (future tense), broker a covenant with "the many" (Israel's leaders) for how long? "One week," which translates to *seven years*, aka the final "week" of Daniel's 70 weeks (or 490 years), with a break between the seven weeks and sixty-two weeks. One "seven" and sixty-two "sevens" equals 69 "sevens" or 483 years total, with one week or "seven" remaining. This is the final seven years of the 490 years (seventy sevens or seventy weeks of years), in total.

So, have we seen anyone on the world's scene who has stepped up to successfully broker a seven year covenant with the leaders of Israel? No, we have *not*. We have a lot of talk, we have some threats and we see the current [Pope working with Islamic leaders to bring forth his idea of Chrislam](#) and wants to have a physical center that will be the focal point for the world with Christianity, Islam and Judaism as its centerpiece in Germany, in the coming years. World leaders are largely ignoring or even panning Israel and are pushing for a "two-state solution." Some are adamant in denying that Israel has any rights at all to the Temple Mount and it should go to Islam.

The rhetoric is anti-Israel and yet, when the Antichrist appears on the world's scene, he will be heralded as a man of peace (cf. **Revelation 6:1-2**). This coming man of sin will wow the world with his ability to bring peace to the Middle East. When he does this, we can know that the beginning of the Tribulation is right around the corner.

So in spite of many on social media pointing to this seal, trumpet or bowl judgment opening, nothing can happen inside the Tribulation until the man of sin rises and gets Israel and surrounding Arab nations to sign a peace treaty on the dotted line.

The seven-year peace deal is *the* kickoff for the Tribulation!
