Questions from the Lecture

1. In the lecture we discussed that the Bible is the only reliable and unchanging standard. Why is it reliable? Why is it significant that it is unchanging? What are other things people trust as standards? Where to they all fail?
2. Read and comment on Psalm 119:105. What is the motivation of the Christian when it comes to Bible reading? How does this passage tie in with *Westminster Shorter Catechism* #1?
3. When we study the Bible we find answers for two basic categories. Look at John 20:30-31 and 2 Timothy 3:17 and list the two categories.
