## Impossible for God?!

Is there anything that God can't do? Without thinking we might say, of course not, He is God! But give it just one second thought and you will change your mind immediately. Of course, there are things God can't do because they would be against His very nature. Broadly, God cannot sin. Specifically with reference to our passage, He cannot lie. It can be truly said that God is as good as His Word. When He takes an oath there is absolutely no equivocation – when He makes a promise it comes to pass. The amazing thing about our passage is that it contains an oath that God takes with His very own existence as collateral. The promise of salvation for all those who repent and believe in Jesus is one that every Christian cherishes. The facts that back it up not only provide us reconciliation to God and great assurance, but as our author says, it is an anchor for our very souls. Do you take God for His Word? Have you trusted in Him for salvation? Then you can also believe that all His promises to you as an heir of the Kingdom are sure and true.
