

**Message Title:** 1106 Fearfully & Wonderfully Made, the Ear Pt-11

**Theme:** This message studies the incredible complex and sub-microscopic operations of the inner ear. How it separates individual notes from the vibrating air molecules and sends electrical impulses to individual brain cells for each vibration, to be interpreted as a communication or music or ignored as background noise.

In Romans chapter one we are told that God may be better understood if we understand the genius found in the things that He created. Just as an artist's techniques tell much about the mindset of the artist we can gain knowledge and also faith in our Creator by studying the miracles in God's designs. It becomes much easier to trust a bridge after seeing it support a far greater load than your own, and realizing the genius behind creation is like that.

In observing the seemingly impossible workings of our ears it gives a different perspective of the one we ask for such trivial things as holding a green light because we are running behind. None of us would think of asking a person that we think highly of to hold a door for us or take out our trash because of respect, but "familiarity" can break down those barriers. Jesus put it this way, "A prophet is not without honour, save in his own country, and in his own house".

I have wondered many times if believers realize who they are praying to with some of the things they pray for, or who they are trying to bargain with. Oh I know that we are told to 'come boldly' to God and also "ask and ye shall receive", but that boldness is like a child approaching a parent and the asking is with an awareness that it is up to them to decide. It is a request not an "insistence".

(Insistence: the fact or quality of insisting that something should be done) (Familiarity: Relaxed friendliness or intimacy between people)

The speaker would like you to know that all of these messages are in the chronological progression that God revealed them, and even though many may stand alone, they progress through several subjects that build on the previous lessons. This series of messages titled "Our Timeless Creator" (OTC), shift the focus from salvation and service, to understanding God. How He who needs nothing, benefits from creating the human race. It started in 2007 when God brought the speaker to Psalm 50:15 three times following the miraculous healing of his dying wife. It reads, ***“And call upon me in the day of trouble: I will deliver thee, and thou shalt glorify me”***. Following this he prayed fervently. "LORD, show me how to glorify you and I will do the best I can". The speaker had become a new creature, (2 Corinthians 5:17) on May 20 1973. At that moment the reality of GOD's existence and the direct connection to the Bible became miraculously clear. Overwhelmed with excitement he began telling everyone who had a few moments to listen, what he had found, like a man who had found a cure for a terminal illness, which everyone had. His excitement and enthusiasm continued for well over a year, even when many said, "you'll get over it." Slowly his efforts began to focus on responsibility and all the how-tos of service. As the excitement faded it was replaced with frustration. He had said many times "the most frustrating thing in life is to know what GOD could do and watch him not do it". In 2005 GOD began a work as described in Job 5:17-18, that changed everything. He says," it was much like when I first became a child of God all over again". He describes it like application of (2 Corinthians 3:18), "But we all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, ***even*** as by the Spirit of the Lord". Truly it has been a life changing experience as God increases and we, without trying, decrease.
