Christianity Incorporated Part 1: "Helping Everyone Else."

I Text:

Old Covenant: *Jeremiah 29:4-14*

New Covenant: *3 John 1*

II Doctrine: The New Testament Church is based upon the synagogue model as opposed to the temple model of worship. The local Church is where God builds his kingdom. The Church has copied the culture of globalism as its model. The celebrity Pastor who owns the largest globalist Church is now the ideal. The modern Church has become cold and consumer based just like the multinational corporations it emulates. Take care of the sheep God has placed in your pasture.
