CREATION VS THEISTIC EVOLUTION

5/15/2022

Text: Various

Theme: Scripture compared to theistic evolution.

THEISTIC EVOLUTION

What are people believing in when they believe in theistic evolution? Are they believing in God's Word or the theory of evolution?

God could have used evolution and still be an all-powerful God

Theistic evolution contradicts biblical creation

Creation of man (Gen 1:26, 27; 2:7, 21-23)

The creation of man defies evolution

The origin of death (Rom 5:12; 1 Cor 15:21, 22, 27)

Theistic evolution – death before Adam

Biblical creation – God said death came by sin...Adam

Why would anything die before sin?

Christ came to break the power of death...

Evolutionary History	Genesis Account
The sun forms before the earth	The earth is present before the sun
Land mammals appear before whales	Whales are created before land animals
The earth begins as a molten mass of rock without any water	The earth begins with water
Reptiles evolve before birds	Birds are formed before reptiles
Thorns and thistles evolve before man	Thorns and thistles are a result of man's sin
