

# HISSY FIT! (AGAINST MASCULINITY)

Joey Faust (6-22-22)

Titus 2:4 That they may teach the young women to be sober, to **love their husbands**, to love their children,  
5 To be discreet, chaste, keepers at home, good, **obedient to their own husbands**, that **the word of God be not blasphemed.**

**2 Corinthians 1:12 For  
our rejoicing is this, the  
testimony of our  
conscience...**

**Genesis 3:16** Unto the woman he said, I will greatly multiply thy sorrow and thy conception; in sorrow thou shalt bring forth children; and **thy desire shall be to thy husband, and he shall rule over thee.**

**John 13:17** If ye know  
these things, **happy are**  
**ye** if ye do them.

**Ezekiel 16:30** **How weak** is  
thine heart, saith the Lord  
God, seeing thou doest all these  
things, the work of an  
**imperious whorish** woman;

"In feminist Newspeak (Orwell's term for the totalitarian redefining of language), when applied to women, **'strong' means 'easily offended,' and 'perceiving oneself as a victim'...**"

**"Tragically, many women, especially young women, have come to accept those definitions of 'strong'..."**

**"'The women at the ... conference,' wrote Sommers, 'are the New Feminists: articulate, prone to self-dramatization, and chronically offended...'..."**

**"Far from making women strong and independent, New Feminism – the radical feminism that grabs headlines and is taught in universities – weakens women."**

**"It appears to turn them into quivering bowls of jelly, unable to handle the slightest criticism, completely opposed to any expressions of humor that touches on them, and prone to attack other women who don't believe precisely the way they do."**

"No one is safe against taking a misstep and causing yet another feminist to have an **absolute meltdown**. How can anyone get work done under this cloud of petty meanness and **hypersensitive emotions**?"

**"Is it any wonder that  
feminists are, as a group,  
hugely prone to  
depression?"**

**"A woman may think that the man hurt her feelings intentionally if a man makes a logical decision...Men are typically more analytical and pragmatic. By this I mean, they assume if we are telling them something, we are asking them to fix it."**

**"They are problem and solution oriented, and it does not automatically occur to them that all that may be required of them is to listen and be a sounding board for their partner...This is not just a sweeping generalization. This is experience from years and years of working with couples..."**

"Lori Alexander, a married Christian woman who's also known through her blog *The Transformed Wife*, is **warning married women that their desire to control their husbands through a matriarchal spirit** using [marriage-bed], an insistence on being right, always 'having the last word,' and other means, could lead to the **destruction** of their marriage."

**''Most women,' says Alexander, have the matriarchal spirit. The grandmother of nine, who is a mentor to women, has been featured in publications such as USA Today. She says she suffered 23 difficult years in her marriage but turned things around using 'God's principles,' and believes older women must share their wisdom with younger ones.''**

**"...If you are always insisting on being right and having the last word, you will never have a good marriage. This absolutely tears down marriage...this matriarchal spirit that we women can so easily have. It belittles our husbands. It emasculates them. It causes them to feel unworthy..."**

**'''It's like the verse that says that we tear our homes down with our hands. This is one of the greatest ways that we tear homes down, is by being in control, having to have the last word, being right.'''**

*New York Post, June 1, 2022:*

"...We vilify action men, brand chivalry and valor '**toxic masculinity**,' stamp on the manly virtues that made civilization possible. Then we are shocked when armed cops stand around outside a classroom while children are slaughtered, or when strap-hangers watch passively as a woman is assaulted on the subway..."

**''Traditional masculinity is psychologically harmful,' the American Psychological Association declared in 2019.''**

**"Brewing for some decades, the concept of 'toxic masculinity' was brought into the mainstream in the last ten years by fourth-wave feminists...men who come to the rescue of women are dismissed as 'white knighting,' as though even the wish to help a woman is proof of 'toxic masculinity.'"**

***(Spectator, "The toxic concept of toxic masculinity," June 4, 2022)***

**"When people talk about toxic masculinity, they don't mean masculinity at all. Usually, they mean paranoia, sociopathy, malignant narcissism, or some form of self-righteous vindictiveness. These are as common in women as in men..."**

**"Currently, in psychology, it seems to be culturally allowed and even expected to hate men and therefore to blame all ills perpetrated by men on masculinity..."**

**(Michael Karson Ph.D., J.D., "The Myth of Toxic Masculinity," professor of psychology, University of Denver)**
