

**How Christians Should Vote**  
or  
**Christian Political Involvement in a Post-Christian America**  
or  
**How to Make America Great Again**

June 12-August 28, Sunday school

By Rev. Shawn C. Mathis

This is a nine-plus-week course.

Questions will be taken the last 2-3 days (email or anonymously written).

This is a class for mature adults who can calmly voice their opinions while respectfully listening to dissenting views.

The class approaches the subject from a certain perspective on the bible, specifically the Westminster Confession of Faith. So any views that contradict the standards of this church and denomination may be directly (but gently) challenged.

The views expressed by the pastor are not necessarily those of the church leadership or the denomination although every effort is made to be faithful to the Word of God as summarized in the Westminster Confession of Faith.

The question of Christian involvement in politics has not been fully codified by Christian churches within the Protestant tradition. Thus you may not find answers to your specific questions.

Syllabus is subject to change.
