

The Doctrine of Regeneration  
Chapter 34

Murray in RAA “God effects a change which is radical and all-pervasive, a change which cannot be explained in terms of any combination, permutation, or accumulation of human resources, a change which is nothing less than a new creation by him who call the things that be not as though they were, who spake and it was done, who commanded and it stood fast. This, in a word, is regeneration.”

a. Belief/Faith

1 John 5:1

Murray, "It should be specially noted that even faith that Jesus is the Christ is the effect of our regeneration. This of course is the clear implication of John 3:3-8. But John the Apostle here takes pains to make that plain. Regeneration is the beginning of all saving grace in us, and all saving grace in exercise on our part proceeds from the fountain of regeneration. We are not born again by faith or by repentance or by conversion; we repent and believe because we have been regenerated." (RAA, 103)
