

No longer neglecting the things of God
Nehemiah 10:1-39

As we look into Nehemiah 10, we see that this 117 year long rolling revival continues as God's people enter into a covenant to restore certain things which have been lost in their experience. It happened after reading the Word of God. They show how true faith, is a faith that works for change. True faith inspires the heart to change and engages a people who rise up – no longer neglecting the things of God.
